

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product form : Mixture  
Trade name : Pearlescent Pigment ChemTech CT1234  
Type of product : Colouring agents

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### 1.2.1. Relevant identified uses

Main use category : Industrial use, Professional use  
Use of the substance/mixture : Dyestuff/pigment  
Function or use category : Colouring agents

##### 1.2.2. Uses advised against

No additional information available

#### 1.3. Details of the supplier of the safety data sheet

Chemical Technologies SIA  
Ganību Dambis 36, office 309  
Rīga, LV-1005  
Latvia  
T +371 6738 1303  
[info@chemtech.global](mailto:info@chemtech.global) - [www.chemtech.global](http://www.chemtech.global)

#### 1.4. Emergency telephone number

Emergency number : 112

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

##### Adverse physicochemical, human health and environmental effects

No additional information available

#### 2.2. Label elements

##### Labelling according to Regulation (EC) No. 1272/2008 [CLP]

EUH-statements : EUH210 - Safety data sheet available on request.

#### 2.3. Other hazards

This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII  
This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII  
Contains no PBT and/or vPvB substances  $\geq 0.1\%$  assessed in accordance with REACH Annex XIII

The mixture does not contain substance(s) included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or substance(s) are not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 %

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not applicable

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### 3.2. Mixtures

| Name                                                                                   | Product identifier                                                     | %       | Classification according to Regulation (EC) No. 1272/2008 [CLP] |

## SECTION 4: First aid measures

### 4.1. Description of first aid measures

|                                       |                                                                                                                                                                                                  |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general            | : Get medical advice/attention if you feel unwell.                                                                                                                                               |
| First-aid measures after inhalation   | : Remove person to fresh air and keep comfortable for breathing. Seek medical attention if ill effect or irritation develops.                                                                    |
| First-aid measures after skin contact | : Wash skin with plenty of water. Remove contaminated clothing. If skin irritation or rash occurs: Get medical advice/attention.                                                                 |
| First-aid measures after eye contact  | : In case of contact, immediately rinse eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If necessary seek medical advice. |
| First-aid measures after ingestion    | : IF SWALLOWED: Rinse mouth and call a POISON CENTER/doctor if you feel unwell.                                                                                                                  |

### 4.2. Most important symptoms and effects, both acute and delayed

|                                     |                                                                                                          |
|-------------------------------------|----------------------------------------------------------------------------------------------------------|
| Symptoms/effects after inhalation   | : Dust of the product, if present, may cause respiratory irritation after excessive inhalation exposure. |
| Symptoms/effects after skin contact | : Product dust may cause mechanical irritation to the skin and mucous membranes.                         |
| Symptoms/effects after eye contact  | : Direct contact with the eyes is likely to be irritating. redness, itching, tears.                      |
| Symptoms/effects after ingestion    | : Ingestion may cause nausea and vomiting. May cause irritation to the digestive tract.                  |

### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

## SECTION 5: Firefighting measures

### 5.1. Extinguishing media

|                                |                                                                  |
|--------------------------------|------------------------------------------------------------------|
| Suitable extinguishing media   | : Water spray. Dry powder. Foam. Dry sand. Carbon dioxide (CO2). |
| Unsuitable extinguishing media | : Do not use a heavy water stream.                               |

### 5.2. Special hazards arising from the substance or mixture

|                                                  |                                                                                                   |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------|
| Fire hazard                                      | : Not flammable.                                                                                  |
| Explosion hazard                                 | : No direct explosion hazard.                                                                     |
| Reactivity in case of fire                       | : Product is not explosive.                                                                       |
| Hazardous decomposition products in case of fire | : Incomplete combustion releases dangerous carbon monoxide, carbon dioxide and other toxic gases. |

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### 5.3. Advice for firefighters

|                                |                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautionary measures fire    | : Evacuate area.                                                                                                                                                                                                                                                                                                                                  |
| Firefighting instructions      | : Do not enter fire area without proper protective equipment, including respiratory protection. Exercise caution when fighting any chemical fire. Evacuate area. Fight fire with normal precautions from a reasonable distance. Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. |
| Protection during firefighting | : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.                                                                                                                                                                                                          |
| Other information              | : High temperature decomposition products are harmful by inhalation.                                                                                                                                                                                                                                                                              |

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

|                                           |                                                                                                                                                                                           |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General measures                          | : Ensure adequate ventilation. Stop the leak. Sweep or shovel spills into appropriate container for disposal.                                                                             |
| <b>6.1.1. For non-emergency personnel</b> |                                                                                                                                                                                           |
| Protective equipment                      | : Wear recommended personal protective equipment.                                                                                                                                         |
| Emergency procedures                      | : Avoid contact with eyes, skin and clothing. Ventilate spillage area. Do not touch or walk on the spilled product.                                                                       |
| <b>6.1.2. For emergency responders</b>    |                                                                                                                                                                                           |
| Protective equipment                      | : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".                               |
| Emergency procedures                      | : Evacuate unnecessary personnel. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Stop leak if safe to do so. Ventilate area. |

### 6.2. Environmental precautions

Avoid release to the environment.

### 6.3. Methods and material for containment and cleaning up

|                         |                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| For containment         | : Stop leak without risks if possible. Collect spillage. Do not touch or walk on the spilled product. Avoid creating or spreading dust. |
| Methods for cleaning up | : Mechanically recover the product. Sweep up or vacuum up the product.                                                                  |
| Other information       | : Dispose of materials or solid residues at an authorized site.                                                                         |

### 6.4. Reference to other sections

For further information refer to section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

|                                   |                                                                                                                                         |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Additional hazards when processed | : Not expected to present a significant hazard under anticipated conditions of normal use.                                              |
| Precautions for safe handling     | : Ensure good ventilation of the work station. Wear personal protective equipment.                                                      |
| Hygiene measures                  | : Do not eat, drink or smoke when using this product. Always wash hands after handling the product. Wear personal protective equipment. |

### 7.2. Conditions for safe storage, including any incompatibilities

|                        |                                                                   |
|------------------------|-------------------------------------------------------------------|
| Technical measures     | : Does not require any specific or particular technical measures. |
| Storage conditions     | : Store in a well-ventilated place. Keep cool.                    |
| Incompatible products  | : Strong acids. Strong bases.                                     |
| Maximum storage period | : ≥ 6 months                                                      |
| Storage temperature    | : 5 – 35 °C                                                       |

### 7.3. Specific end use(s)

No additional information available

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

##### 8.1.1 National occupational exposure and biological limit values

No additional information available

##### 8.1.2. Recommended monitoring procedures

No additional information available

##### 8.1.3. Air contaminants formed

No additional information available

##### 8.1.4. DNEL and PNEC

No additional information available

##### 8.1.5. Control banding

No additional information available

#### 8.2. Exposure controls

##### 8.2.1. Appropriate engineering controls

###### Appropriate engineering controls:

Ensure good ventilation of the work station.

##### 8.2.2. Personal protection equipment

###### Personal protective equipment symbol(s):

###### 8.2.2.1. Eye and face protection

###### Eye protection:

Safety glasses

###### 8.2.2.2. Skin protection

###### Skin and body protection:

Wear suitable protective clothing

###### Hand protection:

Protective gloves

###### 8.2.2.3. Respiratory protection

###### Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment

###### 8.2.2.4. Thermal hazards

No additional information available

##### 8.2.3. Environmental exposure controls

###### Environmental exposure controls:

Avoid release to the environment.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

|                |                    |
|----------------|--------------------|
| Physical state | : Solid            |
| Colour         | : Various colours. |
| Appearance     | : Powder.          |
| Odour          | : odourless.       |

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

|                                                 |                  |
|-------------------------------------------------|------------------|
| Odour threshold                                 | : Not available  |
| Melting point                                   | : Not available  |
| Freezing point                                  | : Not applicable |
| Boiling point                                   | : Not available  |
| Flammability                                    | : Non flammable. |
| Explosive limits                                | : Not applicable |
| Lower explosion limit                           | : Not applicable |
| Upper explosion limit                           | : Not applicable |
| Flash point                                     | : Not applicable |
| Auto-ignition temperature                       | : Not applicable |
| Decomposition temperature                       | : Not available  |
| pH                                              | : Not available  |
| pH solution                                     | : Not available  |
| Viscosity, kinematic                            | : Not applicable |
| Solubility                                      | : Not available  |
| Partition coefficient n-octanol/water (Log Kow) | : Not available  |
| Vapour pressure                                 | : Not available  |
| Vapour pressure at 50°C                         | : Not available  |
| Density                                         | : Not available  |
| Relative density                                | : 2.2 – 3.2      |
| Relative vapour density at 20°C                 | : Not applicable |
| Particle size                                   | : 40 — 200 µm    |
| Particle size distribution                      | : Not available  |
| Particle shape                                  | : Not available  |
| Particle aspect ratio                           | : Not available  |
| Particle aggregation state                      | : Not available  |
| Particle agglomeration state                    | : Not available  |
| Particle specific surface area                  | : Not available  |
| Particle dustiness                              | : Not available  |

### 9.2. Other information

#### 9.2.1. Information with regard to physical hazard classes

No additional information available

#### 9.2.2. Other safety characteristics

Bulk density : 40 – 60 g/cm³

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

### 10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

### 10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

### 10.5. Incompatible materials

Strong acids. Strong bases.

### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### SECTION 11: Toxicological information

#### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity (oral) : Not classified  
Acute toxicity (dermal) : Not classified  
Acute toxicity (inhalation) : Not classified

| SYNTHETIC FLUORPHLOGOPITE (12003-38-2) |                                                                                           |
|----------------------------------------|-------------------------------------------------------------------------------------------|
| LC50 Inhalation - Rat                  | > 5 mg/l/4h Guideline OECD 403. Source – literature data.                                 |
| Titanium dioxide (13463-67-7)          |                                                                                           |
| LD50 oral rat                          | > 5000 mg/kg bodyweight OECD Guideline 425, EPA OPPTS 870.1100. Source – literature data. |
| LC50 Inhalation - Rat (Dust/Mist)      | > 6.82 mg/l Source – literature data                                                      |
| Tin dioxide (18282-10-5)               |                                                                                           |
| LD50 oral rat                          | > 2000 mg/kg bodyweight Guideline EU Method B1. Source – literature data.                 |
| LC50 Inhalation - Rat (Dust/Mist)      | > 2.04 mg/l/4h Guideline OECD 403. Source – literature data.                              |
| Silicon dioxide (7631-86-9)            |                                                                                           |
| LD50 oral rat                          | > 5000 mg/kg bodyweight Guideline EU directive 79/831. Source – literature data.          |
| LD50 dermal rat                        | > 2000 mg/kg bodyweight Guideline OECD 402. Source – literature data.                     |
| LC50 Inhalation - Rat (Dust/Mist)      | 5.01 mg/l/4h Guideline OECD 436. Source – literature data.                                |
| Skin corrosion/irritation              | : Not classified                                                                          |
| Serious eye damage/irritation          | : Not classified                                                                          |
| Respiratory or skin sensitisation      | : Not classified                                                                          |
| Germ cell mutagenicity                 | : Not classified                                                                          |
| Carcinogenicity                        | : Not classified                                                                          |
| Titanium dioxide (13463-67-7)          |                                                                                           |
| IARC group                             | 2B - Possibly carcinogenic to humans                                                      |
| Silicon dioxide (7631-86-9)            |                                                                                           |
| IARC group                             | 3 - Not classifiable                                                                      |
| Reproductive toxicity                  | : Not classified                                                                          |
| STOT-single exposure                   | : Not classified                                                                          |
| STOT-repeated exposure                 | : Not classified                                                                          |
| SYNTHETIC FLUORPHLOGOPITE (12003-38-2) |                                                                                           |
| NOAEL (oral, rat, 90 days)             | > 5000 mg/kg bodyweight/day Source – literature data.                                     |
| Titanium dioxide (13463-67-7)          |                                                                                           |
| NOAEL (oral, rat, 90 days)             | > 1000 mg/kg bodyweight/day Guideline OECD 408. Source – literature data.                 |
| Tin dioxide (18282-10-5)               |                                                                                           |
| NOAEL (oral, rat, 90 days)             | ≥ 10000 mg/kg bodyweight/day Source – literature data.                                    |
| Silicon dioxide (7631-86-9)            |                                                                                           |
| NOAEL (oral, rat, 90 days)             | 4000 mg/kg bodyweight/day Guideline OECD 408. Source – literature data.                   |
| Aspiration hazard                      | : Not classified                                                                          |
| Pearlescent Pigment ChemTech CT1234    |                                                                                           |
| Viscosity, kinematic                   | Not applicable                                                                            |

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### 11.2. Information on other hazards

No additional information available

## SECTION 12: Ecological information

### 12.1. Toxicity

Ecology - general : The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

Hazardous to the aquatic environment, short-term (acute) : Not classified

Hazardous to the aquatic environment, long-term (chronic) : Not classified

Not rapidly degradable

#### Titanium dioxide (13463-67-7)

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| LC50 - Fish [1]        | > 100 mg/l Source – literature data                                                                    |
| EC50 - Crustacea [1]   | > 500 mg/l Source – literature data.                                                                   |
| EC50 72h - Algae [1]   | > 100 mg/l Guideline OECD 201. Source – literature data.                                               |
| NOEC chronic crustacea | ≥ 5 mg/l Exposure period 21 days. Test type semi-static. Guideline OECD 211. Source – literature data. |

#### Tin dioxide (18282-10-5)

|                      |                                                                               |
|----------------------|-------------------------------------------------------------------------------|
| LC50 - Fish [1]      | > 100 mg/l Source - literature data                                           |
| EC50 - Crustacea [1] | > 100 mg/l Source – literature data.                                          |
| EC50 72h - Algae [1] | > 100 mg/l Guideline OECD 201. Source – literature data.                      |
| NOEC chronic algae   | 9.77 mg/l Exposure period 72 h. Guideline OECD 201. Source – literature data. |

#### Silicon dioxide (7631-86-9)

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| LC50 - Fish [1]        | 10000 mg/l Guideline OECD 203 Source – literature data.                                              |
| EC50 - Crustacea [1]   | > 5000 mg/l Guideline OECD 202. Source – literature data.                                            |
| EC50 72h - Algae [1]   | > 173.1 mg/l Guideline OECD 201. Source – literature data.                                           |
| NOEC chronic crustacea | 68 mg/l Exposure period 21 days. Test type semi-static. Guideline OECD 211 Source – literature data. |

### 12.2. Persistence and degradability

No additional information available

### 12.3. Bioaccumulative potential

No additional information available

### 12.4. Mobility in soil

No additional information available

### 12.5. Results of PBT and vPvB assessment

#### Pearlescent Pigment ChemTech CT1234

This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII

This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII

### 12.6. Endocrine disrupting properties

No additional information available

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### 12.7. Other adverse effects

No additional information available

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

|                                            |                                                                                                                                                                          |
|--------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Regional waste regulation                  | : Disposal must be done according to official regulations.                                                                                                               |
| Waste treatment methods                    | : Dispose of contents/container in accordance with licensed collector's sorting instructions.                                                                            |
| Sewage disposal recommendations            | : Disposal must be done according to official regulations.                                                                                                               |
| Product/Packaging disposal recommendations | : Dispose in a safe manner in accordance with local/national regulations.                                                                                                |
| Ecology - waste materials                  | : Avoid release to the environment.                                                                                                                                      |
| European List of Waste (LoW, EC 2000/532)  | : 08 00 00 - WASTES FROM THE MANUFACTURE, FORMULATION, SUPPLY AND USE (MFSU) OF COATINGS (PAINTS, VARNISHES AND VITREOUS ENAMELS), ADHESIVES, SEALANTS AND PRINTING INKS |

### 14.6. Special precautions for user

#### Overland transport

Not regulated

#### Transport by sea

Not regulated

#### Air transport

Not regulated

#### Inland waterway transport

Not regulated

#### Rail transport

Not regulated

### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable

# Pearlescent Pigment ChemTech CT1234

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

##### 15.1.1. EU-Regulations

Contains no substance(s) listed on REACH Annex XVII (Restriction Conditions)  
Contains no substance(s) listed on the REACH Candidate List  
Contains no substance(s) listed on REACH Annex XIV (Authorisation List)  
Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals)  
Contains no substance(s) listed on the POP list (Regulation EU 2019/1021 on persistent organic pollutants)  
Contains no substance(s) listed on the Ozone Depletion list (Regulation EU 1005/2009 on substances that deplete the ozone layer)  
Contains no substance(s) listed on the Explosives Precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors)  
Contains no substance(s) listed on the Drug Precursors list (Regulation EC 273/2004 on the manufacture and the placing on market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances)

##### 15.1.2. National regulations

No additional information available

#### 15.2. Chemical safety assessment

No chemical safety assessment has been carried out

### SECTION 16: Other information

#### Abbreviations and acronyms:
