

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product form : Mixture  
Trade name : Pearlescent Pigment ChemTech CTA205  
Type of product : Pigment

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

##### Relevant identified uses

Main use category : Industrial use, Professional use  
Use of the substance/mixture : Dyestuff/pigment  
Function or use category : Colouring agents

#### 1.3. Details of the supplier of the safety data sheet

Chemical Technologies SIA  
Ganibu Dambis 36, office 309  
Riga, LV-1005  
Latvia  
T +371 6738 1303  
[info@chemtech.global](mailto:info@chemtech.global), [www.chemtech.global](http://www.chemtech.global)

#### 1.4. Emergency telephone number

Emergency number : 112

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

##### Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified

##### Adverse physicochemical, human health and environmental effects

Do not breathe dusts or mists.

#### 2.2. Label elements

##### Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Precautionary statements (CLP) : P264 - Wash hands thoroughly after handling.  
P280 - Wear eye protection, protective gloves.  
EUH-statements : EUH210 - Safety data sheet available on request.  
EUH212 - Warning! Hazardous respirable dust may be formed when used. Do not breathe dust.

#### 2.3. Other hazards

This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII  
This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII  
Contains no PBT and/or vPvB substances  $\geq 0.1\%$  assessed in accordance with REACH Annex XIII

The mixture does not contain substance(s) included in the list established in accordance with Article 59(1) of REACH for having endocrine disrupting properties, or substance(s) are not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0,1 %

# Pearlescent Pigment ChemTech CTA205

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### SECTION 3: Composition/information on ingredients

#### 3.2. Mixtures

| Name                                                                                                                                                                 | Product identifier                                                         | %       | Classification according to Regulation (EC) No. 1272/2008 [CLP] |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------|---------|-----------------------------------------------------------------|
| Fluorophlogopite (Mg3K[AlF2O(SiO3)3])<br>substance with national workplace exposure limit(s)<br>(IT, LV, PL); substance with a Community workplace<br>exposure limit | CAS-No.: 12003-38-2<br>EC-No.: 234-426-5<br>REACH-no: 01-2119971065-<br>37 | 40 – 60 | Not classified                                                  |
| Titanium dioxide<br>substance with national workplace exposure limit(s)<br>(DE, FR, GB, LV, PL)                                                                      | CAS-No.: 13463-67-7<br>EC-No.: 236-675-5<br>REACH-no: 01-2119489379-<br>17 | 38 – 58 | Not classified                                                  |

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

|                                       |                                                                                                                                                                                                  |
|---------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general            | : Get medical advice/attention if you feel unwell.                                                                                                                                               |
| First-aid measures after inhalation   | : Remove person to fresh air and keep comfortable for breathing. Seek medical attention if ill effect or irritation develops.                                                                    |
| First-aid measures after skin contact | : Wash skin with plenty of water. Remove contaminated clothing. If skin irritation or rash occurs: Get medical advice/attention.                                                                 |
| First-aid measures after eye contact  | : In case of contact, immediately rinse eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If necessary seek medical advice. |
| First-aid measures after ingestion    | : IF SWALLOWED: Rinse mouth and call a POISON CENTER/doctor if you feel unwell.                                                                                                                  |

#### 4.2. Most important symptoms and effects, both acute and delayed

|                                     |                                                                                                          |
|-------------------------------------|----------------------------------------------------------------------------------------------------------|
| Symptoms/effects after inhalation   | : Dust of the product, if present, may cause respiratory irritation after excessive inhalation exposure. |
| Symptoms/effects after skin contact | : Dust may cause irritation in skin folds or by contact in combination with tight clothing.              |
| Symptoms/effects after eye contact  | : Direct contact with the eyes is likely to be irritating. redness, itching, tears.                      |
| Symptoms/effects after ingestion    | : Ingestion may cause nausea and vomiting. May cause irritation to the digestive tract.                  |

#### 4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

|                                |                                                                  |
|--------------------------------|------------------------------------------------------------------|
| Suitable extinguishing media   | : Water spray. Dry powder. Foam. Dry sand. Carbon dioxide (CO2). |
| Unsuitable extinguishing media | : Do not use a heavy water stream.                               |

#### 5.2. Special hazards arising from the substance or mixture

|                                                  |                                                            |
|--------------------------------------------------|------------------------------------------------------------|
| Fire hazard                                      | : Not flammable.                                           |
| Explosion hazard                                 | : No direct explosion hazard.                              |
| Reactivity in case of fire                       | : Product is not explosive.                                |
| Hazardous decomposition products in case of fire | : Hazardous gases may be released in a surrounding flames. |

#### 5.3. Advice for firefighters

|                             |                  |
|-----------------------------|------------------|
| Precautionary measures fire | : Evacuate area. |
|-----------------------------|------------------|

# Pearlescent Pigment ChemTech CTA205

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

|                                |                                                                                                                                                                                                                                                                                                                                                   |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Firefighting instructions      | : Do not enter fire area without proper protective equipment, including respiratory protection. Exercise caution when fighting any chemical fire. Evacuate area. Fight fire with normal precautions from a reasonable distance. Use water spray or fog for cooling exposed containers. Prevent fire fighting water from entering the environment. |
| Protection during firefighting | : Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.                                                                                                                                                                                                          |
| Other information              | : High temperature decomposition products are harmful by inhalation.                                                                                                                                                                                                                                                                              |

## SECTION 6: Accidental release measures

### 6.1. Personal precautions, protective equipment and emergency procedures

|                  |                                                                                                               |
|------------------|---------------------------------------------------------------------------------------------------------------|
| General measures | : Ensure adequate ventilation. Stop the leak. Sweep or shovel spills into appropriate container for disposal. |
|------------------|---------------------------------------------------------------------------------------------------------------|

#### For non-emergency personnel

|                      |                                                                                                                     |
|----------------------|---------------------------------------------------------------------------------------------------------------------|
| Protective equipment | : Wear recommended personal protective equipment.                                                                   |
| Emergency procedures | : Avoid contact with eyes, skin and clothing. Ventilate spillage area. Do not touch or walk on the spilled product. |

#### For emergency responders

|                      |                                                                                                                                                                                           |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Protective equipment | : Do not attempt to take action without suitable protective equipment. For further information refer to section 8: "Exposure controls/personal protection".                               |
| Emergency procedures | : Evacuate unnecessary personnel. Prevent from entering sewers, basements and workpits, or any place where its accumulation can be dangerous. Stop leak if safe to do so. Ventilate area. |

### 6.2. Environmental precautions

Avoid release to the environment.

### 6.3. Methods and material for containment and cleaning up

|                         |                                                                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| For containment         | : Stop leak without risks if possible. Collect spillage. Do not touch or walk on the spilled product. Avoid creating or spreading dust. |
| Methods for cleaning up | : Mechanically recover the product. Sweep up or vacuum up the product.                                                                  |
| Other information       | : Dispose of materials or solid residues at an authorized site.                                                                         |

### 6.4. Reference to other sections

For further information refer to section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

|                                   |                                                                                                                                         |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Additional hazards when processed | : Not expected to present a significant hazard under anticipated conditions of normal use.                                              |
| Precautions for safe handling     | : Ensure good ventilation of the work station. Wear personal protective equipment.                                                      |
| Hygiene measures                  | : Do not eat, drink or smoke when using this product. Always wash hands after handling the product. Wear personal protective equipment. |

### 7.2. Conditions for safe storage, including any incompatibilities

|                     |                                                                   |
|---------------------|-------------------------------------------------------------------|
| Technical measures  | : Does not require any specific or particular technical measures. |
| Storage conditions  | : Store in a well-ventilated place. Keep cool.                    |
| Storage temperature | : 5 – 35 °C                                                       |

### 7.3. Specific end use(s)

No additional information available

# Pearlescent Pigment ChemTech CTA205

## Safety Data Sheet

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

##### National occupational exposure and biological limit values

| Fluorphlogopite (Mg <sub>3</sub> K[AlF <sub>2</sub> O(SiO <sub>3</sub> ) <sub>3</sub> ]) (12003-38-2) |                                 |
|-------------------------------------------------------------------------------------------------------|---------------------------------|
| EU - Indicative Occupational Exposure Limit (IOEL)                                                    |                                 |
| Local name                                                                                            | Fluorides, inorganic            |
| IOEL TWA                                                                                              | 2,5 mg/m <sup>3</sup>           |
| Regulatory reference                                                                                  | COMMISSION DIRECTIVE 2000/39/EC |

#### 8.2. Exposure controls

##### Appropriate engineering controls

###### Appropriate engineering controls:

Ensure good ventilation of the work station.

##### Personal protection equipment

###### Personal protective equipment symbol(s):

##### Eye and face protection

###### Eye protection:

Safety glasses

##### Skin protection

###### Skin and body protection:

Wear suitable protective clothing

###### Hand protection:

Protective gloves

##### Respiratory protection

###### Respiratory protection:

In case of insufficient ventilation, wear suitable respiratory equipment

##### Environmental exposure controls

###### Environmental exposure controls:

Avoid release to the environment.

### SECTION 9: Physical and chemical properties

#### 9.1. Information on basic physical and chemical properties

|                       |                  |
|-----------------------|------------------|
| Physical state        | : Solid          |
| Colour                | : White.         |
| Appearance            | : Powder.        |
| Odour                 | : Not available  |
| Odour threshold       | : Not available  |
| Melting point         | : Not available  |
| Freezing point        | : Not applicable |
| Boiling point         | : Not available  |
| Flammability          | : Non flammable  |
| Lower explosion limit | : Not applicable |
| Upper explosion limit | : Not applicable |
| Flash point           | : Not applicable |

| Particle size                                   | : 10 — 60 µm                    |

### 9.2. Other information

No additional information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

### 10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

### 10.4. Conditions to avoid

None under recommended storage and handling conditions (see section 7).

### 10.5. Incompatible materials

None known.

### 10.6. Hazardous decomposition products

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

|                             |                                                                                     |
|-----------------------------|-------------------------------------------------------------------------------------|
| Acute toxicity (oral)       | : Not classified (Based on available data, the classification criteria are not met) |
| Acute toxicity (dermal)     | : Not classified (Based on available data, the classification criteria are not met) |
| Acute toxicity (inhalation) | : Not classified (Based on available data, the classification criteria are not met) |

#### Fluorophlogopite (Mg<sub>3</sub>K[AlF<sub>2</sub>O(SiO<sub>3</sub>)<sub>3</sub>]) (12003-38-2)

### 14.6. Special precautions for user

#### Overland transport

Not applicable

#### Transport by sea

Not applicable

#### Air transport

Not applicable

#### Inland waterway transport

Not applicable

#### Rail transport

Not applicable

### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable

## SECTION 15: Regulatory information

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### EU-Regulations

##### REACH Annex XVII (Restriction List)

Contains no substance(s) listed on REACH Annex XVII (Restriction Conditions)

##### REACH Annex XIV (Authorisation List)

Contains no substance(s) listed on REACH Annex XIV (Authorisation List)

##### REACH Candidate List (SVHC)

Contains no substance(s) listed on the REACH Candidate List

##### PIC Regulation (Prior Informed Consent)

Contains no substance(s) listed on the PIC list (Regulation EU 649/2012 concerning the export and import of hazardous chemicals)

##### POP Regulation (Persistent Organic Pollutants)

Contains no substance(s) listed on the POP list (Regulation EU 2019/1021 on persistent organic pollutants)

##### Ozone Regulation (2024/590)

Not listed on the Ozone Depletion list (Regulation EU 2024/590)

Contains no substance(s) listed on the Ozone Depletion list (Regulation EU 2024/590 on substances that deplete the ozone layer)

##### Council Regulation (EC) for the control of dual-use items

Contains no substance subject to the COUNCIL REGULATION (EC) for the control of dual-use items

##### Explosives Precursors Regulation (2019/1148)

Contains no substance(s) listed on the Explosives Precursors list (Regulation EU 2019/1148 on the marketing and use of explosives precursors)

##### Drug Precursors Regulation (273/2004)

Contains no substance(s) listed on the Drug Precursors list (Regulation EC 273/2004 on the manufacture and the placing on market of certain substances used in the illicit manufacture of narcotic drugs and psychotropic substances)
